**CAREER ABSTRACT**

An enthusiastic professional experienced insoftware development lifecycle .I an active interest in developing ,debugging deploying web applications .Javascript and Java are my weapons of choice.

**WORK EXPERIENCE**

**TCS (Bank Yahav Project , TCS Gurugram )**

*December 2018 - March 2020*

Worked on flagship product, TCS BaNcs (Banking Domain). The project required extensive knowledge in HTML5 ,CSS3 ,Javascript ,AJAX ,Bootstrap ,Java ,SQL and Unix. I was fortunately a member of the Core team working on the front end of the web application. My work items primarily included developing logic and writing code for new functionalities ,fixing existing bugs ,optimising the code and ensuring overall smooth functioning of the web application. I also have experience in code debugging using Chrome Developer Tools and Eclipse. In a nutshell , I have worked with multiple Deployment and Testing teams on onshore and offshore front during my tenure .

**PROJECTS**

## AMEDIA

https://github.com/aadhar54/SocialMedia

Amedia is a social media app which does not require login. It is developed using Node Js as backend server and vanilla javascript at frontend. It provides each visiting user a random username and lets him react and review to other posts without a real identity.

## STORYBOOKZ

https://github.com/aadhar54/storybookz

This is a crud application StoryBooks app which uses Node.js, Express, MongoDB,

Passport with a Google OAuth strategy .Functionality : User can create public and private posts( stories ) and can also add new stories , edit and delete old stories .User can also view public stories of other users but there is functionality for comments because who wants other's opinions.It is live at **yourstorybook.herokuapp.com/**

## CHATLABS

https://github.com/aadhar54/Chat-Labs

A web-socket based Chat Web Application made in NodeJs and socket.io .Front end frameworks like Bootstrap have been used .It is live on chatlabs8.herokuapp.com/

STRENGTHS

1. Believes in "Team over the individual" principle.
2. Quick learning ,analysis and problem solving capability.
